ANSE CHASTANET'S Casuarina Piton Pool Suite

Anse Chastanet's re-branded Casuarina suite features a brand new 160 square-foot pool surrounded by a 135-square foot deck in the middle of the hillside resort with its breathtaking views of the storied Piton mountains rising from azure waters.

Exquisitely finished with coralina stone tiles and handcrafted furniture made from sustainably culled tropical hardwoods, Casuarina is nestled in lush foliage in a private hillside setting facing the Pitons and the Caribbean Sea.

The spacious bedroom with walk-in closet opens to a 420-square foot open walled patio-living room area. The grand bathroom, also with a Piton view, features a “Couples Shower” with “His” and “Hers” rain shower heads.
